

Screw Cover Junction Box

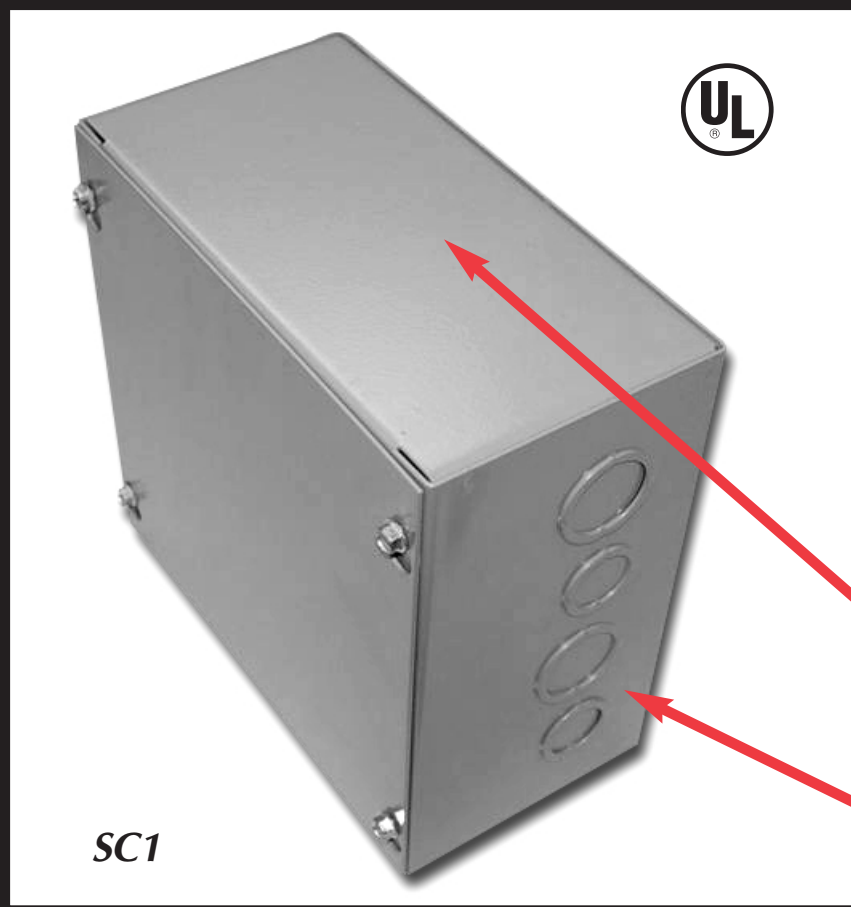

SC1 With & Without Knockouts

No-knockout junction boxes give contractors the flexibility to put KO's anywhere they are needed, but many prefer factory KO's because they are quick, easy and consistent.

Milbank Offers Both in One Box!

Two Opposing Sides
without KO's

Two Opposing Sides
with KO's

- Versatile – One box offers the flexibility to use factory knockouts or precisely located field-cut openings.
- Standard on Type-1 square screw-cover enclosures, from 6" x 6" to 24" x 24". Available in either powder-painted or galvanized steel.
