

UP TO 67% SPACE SAVED

Enclosed Controls

A typical cabinet for electrical distribution is large, costly and unsightly.

Milbank's enclosed controls offer customized solutions that not only save space – up to 67% over our competition, but are attractive, secure, and easy to install.

Our Enclosed Controls give cost-effective solutions where power distribution and control equipment is needed, replacing unsightly and inefficient strut and backboard structures while leaving a smaller footprint.

Common Applications

Outdoor Lighting

Power Distribution

Site Power

Communications

Motor Control

Municipal Power
